

“LC” Reverse Osmosis

Dolce Neve
ESPRESSO MACHINES SERVICE & SALES

RO ≈ Dimensions 32"H x 13"D x 19"W <60 pounds

Simple and compact, this 500 gallon per day light commercial RO includes pressure gauges for easy trouble shooting, a blending valve for perfect TDS water, a dual TDS meter and a booster pump to ensure consistent performance. Featuring genuine Italian made Atlas Filtri housings, USA made 5µ sediment filters, high capacity USA carbon blocks, high rejection USA made “XL” membranes, Original John Guest fittings, USA made Aquatec Pumps and switches and other quality brand names. Only the best components are used to manufacture the Dolce Neve Light Commercial RO systems! For use with any of our pressurized RO storage tanks or add the atmospheric tank conversion kit to use with any size atmospheric tank. The RO can be wall mounted in applications where height or access is an issue.

STEEL TANKS

Steel Part #	≈Total Tank Volume	≈Dimensions HxW	≈Capacity @ 10 PSI Pre-charge, 60 PSI Shutoff
61F-TS32	32 gal.	27.75"x21"	21.4 gal.
61F-TS44	44 gal.	36.25"x21"	29.5 gal.
61F-TS85	85 gal.	44.5"x26"	56.9 gal.
