

The “ELF” 500 GPD wall mount reverse osmosis system is ideal for small commercial applications requiring a consistent supply of high quality water in a simple and compact wall mount package. Featuring USA made quick change filter cartridges, USA made “XL” membrane, original John Guest fittings, Aquatec permeate pump, liquid filled pressure gauges, dual TDS meter, bypass valve, and bulkhead fitting for the cleanest installation. Only the best components are used to manufacture Dolce Neve RO systems! For use with any of our pressurized RO storage tanks. Internal blender can be opened to raise the tds for use with coffee, tea and many other applications.

### Replacement Filters

Item #	Description
60P-EF5SD	ELF Sediment Filter
60P-EF5CB	ELF Carbon Block
60-MM312-500A	500 GPD Membrane

### Pressure Tanks

Item #	Total Capacity	≈Usable Capacity	Diameter ≈	Height ≈	Connector Size
61P-09	9.2 gal.	5.5 gal.	13"	23"	1/4" MNPT
61P-15	14 gal.	8.4 gal.	16"	29"	1" MNPT
61Q-20	21 gal.	12.6 gal.	16"	35"	1" MNPT
61Q-40	40 gal.	24 gal.	21"	43"	1" MNPT
